Activities - Mastering The Art of Conflict Resolution to Foster Team Collaboration and Success

Eight real-workplace simulations use fictional Singapore organisations. Every folder is self-contained and includes detailed instructions with scenario and role cards, a learner worksheet with questions and evidence fields, an observer/quality checklist, and an editable visual briefing deck.

Markdown files are paired with same-basename PDFs for printing and LMS use. Activities require no disclosure of personal conflicts and do not replace organisational policy, HR advice or legal advice.

- Activity 01: Conflict Signal Triage at LionCity Retail - Signal log | stage map | triage matrix
- Activity 02: Evidence Interview and Root-Cause Map at HarborLink Logistics - Interview guide | evidence matrix | root-cause map
